The Fat Contributor in the

The Cleveland Plaindealer's "Fat Contributor" (Griswold) has joined the valliant "Home Guards." He tells his expe-

rience thus:

The moment the flag was threatened large bodies of men were called upon to rally in its defense. Being a large bodied man, I rallied and enrolled myself with the Home Guards. The drill is very severe on me this hot weather, although I am constantly allowed an attendant with a fan and a pitcher of ice water. I am a living paradox, for while getting Hardee, I am deals. paradox, for while getting Hardee, I am daily growing weak. Talk about "the time that tried men's souls," there are the times that try men's fat if they have got any. The captain takes pleasure in put-ting me through at a double quick step.— When I go off I think it will be with a

double quick consumption.

I am constantly remined that one of the first requirements of a soldier is to throw out his chest and draw in his stomtimes while occupying rooms in the attic, I have had considerable practice in throwing out my chest, but by what system of practice could I ever hope to draw in my stomach! I can't "dress up"—its no usa trying. If my vest buttons are in line, I am far in the rear, and if I toe the mark a fearful bulge indicates my position.—

(There is no room for argument in regard to my sentiments—everybody can see ar a glance just where I stand.) One evening we had a new drill sergeant who was near-sighted. Running his eye down the line he exclaimed sharply—"What is that man deing in the ranks with a bass drum?"

Ho pointed at me, but I hadn't any drum, it was the surplus stomach that I couldn't draw in.

As they advanced toward the Fire Zouaves they were met with a basy fire from that gallant band, when they shouted to the Zouaves that they shouted to the Zouaves that they were shocking their own friends—at the same time displaying the stars and stripes. A number of the Zouaves, thinking a mistake might have been made, the stars thrown down and a terrific sortic made upon them. But their treachery met with a swift and terrifle retribution. The muskets of the Zouaves were again turned upon them, and they were fairly cut to pieces, only six of them being left out of one hundred.

I am the butt of numberless jokes, as you may well suppose. They have got a story in the Guards that when I first heard the command—"Order Arms"—I dropped my musket, and taking out my note book began to draw an order on the Governor for what arms I wanted. They say I ordered the Winar's Steam Gun, with a pair of Dablerson's Houstern for side arms! of Dahlgren's Howitzers for side arms!— Base fabricators. My ambition never ex-tended beyond a rifled cannon, and they

Although in respect to size I belong to Although in respect to size I belong to the "heavies," my preference is for Light Infantry service. My knapsack is marked Light Infantry. One evening spectators seemed convulsed about something and my comrades tittered by platoons whenev-er my back was turned. It was all a mys-tery to me until I laid off my knapsack.— Some wretch had eraced the two final letters, and I had been parading all the evening labeled "LIGHT INFANT!" The above is one of the thousand annoyances to which I am subjected, and nothing but my consuming patriotism could ever induce me to submit to it. I railied at the call of my country, and am not to be put out by the

rallying of my comrades.

I overheard a spectator inquire of the drill sergeant one day, "Do you drill the whole of him at once?"

"No," he returned in an awful whisper,
"I drill him by squads!"

I would have drilled him if I had had a

"For what?" said I considerably an-

moyed.

"Want 'em to draw your rations!"

The Guards paid me a delicate compliment at the last meeting. They elected me "Child of the Regiment," with the rank of 1st Corpulant, and the pay of chief "Blowyer." I was about to return thanks "Blowyer." I was about to return thanks in a neat and appropriate speech when a reporter who was present assured me it was no use—he had got the whole thing in type, speech and all, and I could read it in the evening papers. He said they kept a 'neat and appropriate speech,' standing in type continually. I got his views and held my peace.

A Short Fourth of July Oration Eighty-five years ago to-day, after the most prolonged and solemn debate, continued in many ways for twenty years—after the most patient and respectful appeals to the Government—after the most stringent and conclusive argument against injustice—after the plain and final declaration that the crown of Excelent would govern its calculus size. conclusive argumentagement of that the crown of England would govern its colonies simply and only at its pleasure, and without advice or voice from those colonies—after long, and strenuous and vain protest against a laxation to control which they had no representation, and upon the clearest conviction of the human and political rights of every man in society, the thirdeen colonies slewly and sorrowfully took up arms, recited before the world the wrongs they had suffered, and appealed to God and mankind for the justice of their cause.

The tale is familiar and sacred. To-day let it be read again. To-day let every descendent of the men who fought read the manifest of their war. And then let him contrast with it the manifest of the people in this country who profess to justify themselves by that declaration.

The patriots of 76 declared it to be a self-evident truth that all men are endowed by God with certain inalienable rights.

The rebels of '61 declare that they are not.
The patriots of '76 asserted that to secure those rights governments are instituted among

men.

The rebels of '61 declare they are not.

The patriots of '76 proclaimed the right of the people to alter or abolish any government which did not seeme those rights.

The rebels of '61 declare that any discontented faction may forcibly overthrow the government which the people have thus established. The patriots of '76 declared that governments long established should not be changed for light and transient causes.

The rebels of '61 declare that a government may be overthrown by any number of people

The rebels of '61 declare that a government may be overthrown by any number of people who suppose that at some time and in some way it may pursue a policy they do not like.

The patriots of '76 said that when a long train of abuses and usurpations pursuing invariably the same object, evinces a design to senduce them under absolute despotism, the people may throw off the guilty government and provide a new; and they proceeded to cite the long array of long continued outrages upon their rights by the King of Great Britain which justified their action.

The rebels of 61 by the mouth of their Vice-President Stephens, declared on the 14th of November last, that the Government against which they have now taken up arms, although not derfect, "comes nearer the chief." derfect, "comes nearer the objects of all government than any other on the face of

good government than any other on the face of the carth.

The success of the patriots of 76 was the carant of peaceful, progressive, popular gov-crument which should secure to every man the permanent security of his inalienable rights.

The leader of the patriots of 76 was the type of their movement. His word was as sacred as truth.

Thrilling Battle Field Incidents We cut the following from the Washing-ton Republican the following incidents of the battle of Bull's Run:

THE BLACK HORSE REBELS. The charge upon our wounded and fly-ing men by the enemy's Black Horse cav-alry, Capt. Asaph, of Alexandria—of which Wise has so often boasted—is an act well calculated to cover the Southern name with shame and disgrace forever.—
As they advanced toward the Fire Zouaves.

The ensign of the first Rhode Island regiment was shot through the head aid killed during the early part of the engagement, when a brave young fellow, belonging to the same regiment, sprang forward seized the colors and waved them in the air. A minute later, he too, fell dead to

Col. Rurnside seemed to bear a charmed life. The bullets were constantly whizzing past him, some of them even passing through his hat, and yet he escaped without a scratch.

ELLSWORTH THE CRY. The Fire Zouaves advanced to the charge with deafening cheers for the Union, and with deafening cheers for the Union, and were exposed to a galling fire from the batteries, to the fire of the Louisiana Zouaves, and also to the charge of the rebel Black Horse—all of which they stood with a heroism of which the history of the world presents few parallels. At each fire, as they would perceive the rebels fall, they would exclaim, "Ellsworth!"

FIRING UPON PRIENDS. Among the disasters of the day were two very serious ones from the firing into two very serious ones from the firing into each other, by mistake, of our regiments. The 8th New York Regiment was badly cut up thus, by either the 14th or 25th Regiments of the same State. The 69th New York Regiment had one company destroyed almost to a man by a fire from our

plied, "Heitzelman, you are a brave man, and we would follow you as soon as any man, but we will not be cut up this way. We have seen a brave Colonel but not General!"

SECESSION BARBARITIES. We have already heard of a hundred instances of the most unrelenting barbari-ties shown towards the Federal troops indeed, one of the rebel prisoners captured by the New York 71st Regiment, states that they had positive orders to show no quarter to any one. A large number of our wounded soldiers were run through with bayonets as they lay bleeding on the field of battle-and particularly was this done to the Fire Zouaves, on whom they seemed to have a particular spite. We have heard of many other instances in which ambulances containing wounded men were fired upon.

CITIZENS IN THE FIGHT. Capt. William G. Moore, of this city, was on the ground as a spectator, and in the hottest of the fight, was observed to go to the body of a soldier, who had just been shot down, and undo his accoutrements and take his musket, with which he went into the ranks of the Zonaves, and fought as hard as any on the field until the panic. Several other citizens were ob-served, with other regiments, fighting as hard as any of the soldiers.

NEW YORK SIXTY-NINTH. Lieut. Col. Haggerty, of the New York Sixty-ninth, is believed to have been the first man killed. He was a good officer and a brave man. When this regiment went into action, they threw away their coats, and some of them their shoes so as to be unencumbered. As they charged on the enemy, everything gave way before them. They have covered themselves with

Scrofula, or King's Evil

tubercles; in the glands, swellings; are the surface, cruptions or sores. This four ruption, which genders in the blood, depart the energies of life, so that scrofulous commendates the energies of life, so that scrofulous commendates the construction of the construction; and mandestructive diseases of the liver, kidneys, brain and, indeed, of all the organs, arise from a are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise.

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this four disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTRONY'S FIRE. and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OF ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS AND BOILS, TUMORS, TETTER and SALT RHEUX, SCALD HEAD, RINGWORK, RHEUMATISM, SYPHILLIFIC AND MERCURIAL DISEASES, DROPSY, DYSERSIA, DEBILLY, and indeed, ALL COMPLAINTS ARISING FROM VITLATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S

Ague Cure

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilions Headache, and Bilious Fevers, indeed for the whole class of diseases originat-ing in biliary derangement, caused by the Malaria of Miasmatic Countries.

we are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure" expels the miasmatic poison of Faver And Agur from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Faven and Agur prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy ever any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinting or mineral, consequently it produces no quintism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of

tion. Those cured by it are left as heatily as at they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disease, and the disease from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Falpitation, Painful Affection of the Spiecen, Hysterics, Pain in the Bowels, Colic, Paralysis and Devangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

CHEAP SHINGLES. BRING ON YOUR TIMBER.

THE subscriber respectfully informs the public that he has purchased the right to use in Helmes county Bayard's Shingle Machine! Which, where used is acknowledged to be the heat Jent Shingle Machine in use. These shingles are letter and cheaper than those made by hand; firstly, because they are uniform in size and do not warp or draw; and secondly because the shingles made from a cord of timber will lay as such more roof as the lap shingles will from the same amount of timber.

Persons desiring shingles made will prepare their timber in bolts and deliver it at the Board Yard of Hull & Enos, Millersburg, O. Shingles cut for \$1.25 per 1000. Shingles made of all the timbers of which they are usually made.

Persons bringing timber for shingles will have the

usually made.

Persons bringing timber for shingles will have it steamed on the ground, as I have erected a steaming box for that purpose.

Wherever this Machine has been in use the shingles manufactored by it have taken the place of lap shingles.
